# Sustainability at Criteo in 2024

#### OUR COMMITMENT

Criteo is committed to continuous improvement and generating a positive impact across all areas of CSR, prioritizing environmental sustainability and DEI, while maintaining ethics as a fundamental cornerstone. Together with our employees, partners, clients, and consumers, we can shape our future growth and define the value we want to create for society.

In 2024, we are proud to have concretized many of our **Environmental** Social Governance (ESG) targets and received the EcoVadis Silver Medal for the second consecutive year with an overall score of 68/100.

#### ENVIRONMENT Ε

We are reimagining our business practices to build a sustainable future for all while reducing our environmental footprint. Our commitment to environmental sustainability influences our decision-making, shapes our behaviors, and impacts the experiences of our stakeholders.

### SOCIAL

Our commitment to Diversity, Equity, and Inclusion ("DEI") is reflected in everything we do at Criteo, including how we work, how we treat each other, and the impact we have on our clients, partners, and the consumers we serve. Our initiatives are conducted by our DEI team and supported by seven of our Employee Resource Groups ("ERGs").

#### GOVERNANCE G

We set up a Sustainability Committee in charge of overseeing Criteo's sustainability strategy which meets each quarter. This internal committee is chaired by our Chief People Officer and is made of a mix of internal senior stakeholders with strong sustainability commitments. They come from various departments with different knowledge, policy expertise, and strategic insights.

#### ENVIRONMENT

2024 key highlights and figures

# 301,000+

trees in our Tree-Nation Forest, planted as part of our offsetting strategy for business travel and hotel stays through VCS<sup>1</sup> certified credits, and also to contribute to broader reforestation efforts in partnership with the non-profit Tree-Nation<sup>2</sup>

### 77%

of our leased offices are covered by a green certification based on office area in m<sup>2</sup>

### 100% ++++++++

of data centers energy powered by decarbonized energy sources and by Renewable Energy compensated Certificates (RECs)

# 100%

carbon emissions related to business trips (air & train) and hotels offset through VCS certified credits

Responded to the CDP Climate Change questionnaire (D rating for Climate Change and C rating for Water Security)

Published a new and improved **Global Environmental Policy** and Sustainable Travel Policy

In 2024, Criteo published its SBTi targets for 2030, aligned with the 1.5°C scenario of the Paris Agreement:

Scope 1: Criteo commits reduce absolute to Scope 1 GHG emissions by 42% by 2030 from a 2022 base year.

Scope 2: Criteo commits to continue active annual sourcing of 100% renewable electricity through 2030.

SCIENCE BASED TARGETS BUSINESS 1.5°C

Scope 3: Criteo further commits to reduce absolute Scope 3 GHG emissions from purchased goods and services and business travel by 30% by 2030 from a 2022 base year.
